
Loan IQ Technical Training

1. Training Overview

FusionBanking Loan IQ Technical Training is designed to provide in-depth knowledge of the **technical architecture, installation, configuration, and administration** of the Loan IQ system.

This program is ideal for organizations looking to build strong in-house expertise in **Loan IQ implementation, support, and integration**.

2. Objectives

By the end of this training, participants will be able to:

- Understand Loan IQ architecture and technical components
 - Install and configure Loan IQ (Client, Server, Database)
 - Manage Loan IQ environments and configurations
 - Perform batch administration and monitoring
 - Understand Loan IQ data model and tables
 - Troubleshoot system and batch-related issues
 - Work with APIs and integrations
-

3. Target Audience

This training is tailored for:

- Loan IQ Technical Consultants
- Application Support Engineers
- System Administrators
- Middleware / Integration Developers
- Database Administrators (DBAs)

4. Training Duration & Format

- **Duration:** 4 Days (Bootcamp Model)
- **Mode:** Instructor-led (Online / Onsite)
- **Approach:**
 - Conceptual Learning
 - Hands-on Labs
 - Real-time Scenarios
 - Q&A Sessions

5. Course Curriculum

1. Training Overview

FusionBanking Loan IQ Technical Training is a comprehensive program designed to equip participants with end-to-end technical expertise in Loan IQ covering architecture, installation, configuration, database, batch processing, integrations, and production support.

This extended 10-day program ensures deeper coverage, hands-on experience, and real-world troubleshooting scenarios.

2. Training Objectives

By the end of this training, participants will be able to:

- **Understand Loan IQ architecture and system components**
- **Perform complete installation (Client, Server, Database)**
- **Configure and manage Loan IQ environment**
- **Understand Loan IQ data model and database structure**
- **Administer and monitor batch processing**
- **Work with APIs and integrations**

- **Troubleshoot real-time production issues**
 - **Apply best practices in implementation and support**
-

3. Target Audience

- **Loan IQ Technical Consultants**
 - **Application Support Engineers**
 - **System Administrators**
 - **Integration Developers**
 - **Database Administrators (DBAs)**
-

4. Training Format

- **Duration: 10 Days**
 - **Mode: Instructor-led (Online / Onsite)**
 - **Methodology:**
 - **Concept + Detailed Technical Deep Dive**
 - **Hands-on Labs**
 - **Real-world Case Studies**
 - **Production Scenarios**
 - **Interactive Q&A**
-

5. Detailed Course Curriculum (10 Days)

Day 1 – Introduction & Business Concepts

- **Loan IQ Overview**
- **Lending Lifecycle (Deal, Facility, Outstanding)**
- **Syndicated Lending Concepts**

- **Loan IQ Functional Overview**
-

Day 2 – Architecture & Technology Stack

- **Loan IQ Architecture (3-Tier)**
 - **Application, Database & Client Layers**
 - **Supported Technology Stack**
 - **Environment Planning**
-

Day 3 – Installation (Client & Server)

- **Installation Prerequisites**
 - **Loan IQ Client Installation**
 - **Loan IQ Server Installation**
 - **Initial Environment Setup**
-

Day 4 – Database Setup & Configuration

- **Database Architecture**
 - **Oracle / DB2 Setup**
 - **TNS, ODBC Configuration**
 - **DDL Extraction & Execution**
 - **Data Load (Prime & Training Data)**
-

Day 5 – Application Server & Configuration

- **Tomcat Setup & Configuration**
- **Server Directory Structure**
- **Key Config Files (ls2app.ini, runliq.cmd, etc.)**
- **Logging & Environment Settings**

Day 6 – Loan IQ Configuration Deep Dive

- **Server Configuration (ls2app.ini Sections)**
 - **Security Setup & Roles**
 - **API Web Services Configuration**
 - **Event Management Setup**
-

Day 7 – Client Configuration & APIs

- **Client Setup & Configuration Files**
 - **JVM Optimization**
 - **API Concepts (C++, XML, Web Services)**
 - **Integration Protocols (REST, SOAP, JMS, MQ)**
-

Day 8 – Data Model & Utilities

- **Loan IQ Data Model**
 - **Core Tables (Deal, Facility, Outstanding)**
 - **Code Tables & MIS Codes**
 - **Utilities:**
 - **ADM**
 - **LOGDUMP**
 - **LS2UTIL**
 - **NEWCODES**
 - **RLSELOCK**
-

Day 9 – Batch Administration & Processing

- **Batch Architecture (BCP, BPR)**

- **Batch Jobs & Scheduling**
 - **Batch Net Creation & Execution**
 - **Multi-region Batch Setup**
 - **Execution Monitoring**
-

Day 10 – Troubleshooting & Production Scenarios

- **Log Analysis & Debugging**
 - **Batch Failure Handling**
 - **Common Errors & Fixes**
 - **Performance Tuning**
 - **Best Practices**
 - **End-to-End Demo & Q&A**
-

6. Key Features of Training

- ✓ End-to-End Technical Coverage
 - ✓ Real-time Implementation Approach
 - ✓ Hands-on Configuration Exercises
 - ✓ Production Support Scenarios
 - ✓ Troubleshooting Techniques
-

7. Practical Exposure

Participants will gain hands-on experience in:

- **Loan IQ Installation & Setup**
- **Database Configuration & DDL Execution**
- **Batch Creation & Execution**
- **Log Analysis and Debugging**
- **API Setup & Testing**

8. Deliverables

- Training Material (Slides + Notes)
- Hands-on Lab Guides
- Sample Config Files
- Real-time Use Case Examples

9. Business Benefits

- Faster Loan IQ implementation
- Reduced dependency on external vendors
- Improved system stability and performance
- Stronger support & troubleshooting capability
- Enhanced integration readiness

10. Trainer Profile

- Experienced Loan IQ Technical Consultant
- Expertise in Implementation, Support & Upgrades
- Hands-on experience with Real Banking Projects
- Strong knowledge in Batch, DB & Integrations

11. Customization Options

Training can be tailored based on:

- Client environment (Oracle / DB2 / SQL Server)
- Role-specific focus (Support / Admin / Dev)
- Integration-heavy requirements
- Advanced troubleshooting needs
